Microtronix Manufacturing

67 CR Swart Drive
Strydompark
Randburg
2169

Dear Mike,

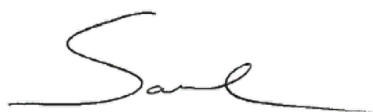

I would like to extend my gratitude to you and the Microtronix team for hosting the APORDE delegates on the tour of your factory. The visit was an invaluable experience for our participants, and it added a great deal of value to our programme. It allowed the participants to see and hear first-hand what is needed to support industrial development.

The tour was informative and well-organised. It was evident that your team had put in a great deal of effort to ensure our visit was both educational and enjoyable. The insights gained during the tour complemented the lectures perfectly, offering real-world context and relevance to the topics discussed.

The feedback from our delegates has been overwhelmingly positive. They found the tour to be not only interesting but also enlightening. The opportunity to see your state-of-the-art facilities, and the manufacturing processes and technology in action was eye-opening for them. Your team's willingness to answer questions and share your expertise further enhanced the experience.

Once again, thank you for your warm hospitality and for contributing to the success of our programme.

Yours sincerely
